CATIC Releases TOPS 10.0 That Includes Significant Improvements to the Platform

Rocky Hill, CT—On Friday, December 15, 2023, CATIC, a leading provider of title insurance services, released the latest version of its title order packaging system (TOPS). This release, version 10.0, comes with significant improvements to the platform that are meant to make the title search ordering process more convenient and efficient for its end users.

The highlights of this TOPS release include: agents being able to place multiple property search orders; enhanced integration between titleLOOK and Qualia; and an easier and more accurate way to enter property address information.

“This latest TOPS release further enhances the CATIC user experience with title production software systems,” said Michael Savenelli, SVP, Chief Operating Officer and Florida Operations at CATIC. “It specifically improves the ability to provide Qualia agents linked and branded Florida commitments courtesy of titleLOOK.”
