

# Town Land Records Online

## Connecticut

Certain towns in Connecticut allow access to their land records online. Some provide only index data; others also allow viewing of images and possibly the printing of the same. Dates applicable to what is online vary by town.

For your convenience, we have provided below the links to those towns that we are aware of that are online. If the town has records online under its own website the town name is underscored as a link. Access to some towns' records is only through a third-party portal like the Connecticut Town Clerks Portal or [USLandrecords.com](http://USLandrecords.com), so you would need to click their link.

Please note that there may be additional disclaimer information or other information provided by the town regarding the records not shown on the page that we have linked to below. To review all information about use of the town's land records online go to the town's respective web page directly and review the applicable web pages or contact the town directly.

The links below can change regularly and we will do our best to provide updates. If you have any problems accessing these links via our site or you are aware of any changes or of towns that we have not listed that are online, please contact [Nancy McCrann](#), Director of Title Vendor Relations at CATIC.

***NOTE: CATIC is not responsible for any inaccuracies and makes no representations, warranties or guarantees concerning the information provided or its accuracy or reliability. Nor is CATIC responsible for any other information or matter on any town sites, any third-party portal site or any site that they may be linked to or to which we may link. CATIC shall not be liable for any matter regarding this online access, including, but not limited to, any errors, and it shall not be liable for any damages in connection with the use of or reliance on this information.***

If you have issues accessing the Town Clerks Portal link using Internet Explorer, it may require the addition of the Town Clerks Portal URL in the "Trusted Sites" section under "Tools" "Internet Options" "Security" in Internet Explorer. If you need assistance, please contact [Nancy McCrann](#).
