# PREMIUM COMPUTATION FOR SIMULTANEOUS OWNER AND MORTGAGEE POLICIES

## Standard ALTA Policies

The Insured Amount of an Owner Policy is based on the full sale price of the property or the fair market value of the land and buildings on the property. There is no charge for the simultaneous Mortgagee Policy, or the multiple simultaneous Mortgagee Policies, provided the Standard Mortgagee Policy, or the total of multiple Standard Mortgagee Policies, is equal to or less than the Insured Amount of the Owner Policy.

If the Mortgagee Policy is, or multiple simultaneous Mortgagee Policies are, in an amount greater than the Owner Policy, compute the Owner Policy rate and add the applicable Mortgagee Policy rate per thousand for the excess of the Mortgagee Policy, or Policies, over the Owner Policy. PLEASE CALL CATIC FOR A COMPUTATION OR VERIFICATION OF THE CHARGES IN THIS SITUATION.

Simultaneous issue rates apply only if the policies are issued within **60 days** of each other.

## Expanded Protection Policies

Where both an Expanded Protection Owner Policy and an Expanded Protection Mortgagee Policy will be issued simultaneously, follow the same rules as above when computing premiums except use the Expanded Protection rates.

## Mixed Coverage Policies

Where a simultaneous issue involves an Expanded Protection Owner Policy and a Standard Mortgagee Policy or Policies, there is no additional charge for the Standard Mortgagee Policy or Policies provided the Standard Mortgagee Policy, or the total of multiple Standard Mortgagee Policies, is equal to or less than the Expanded Protection Owner Policy.

An Expanded Protection Mortgagee Policy (EMP) and a simultaneous Standard Owner Policy is computed as follows:

Compute the premium for EMP amount, e.g., \$200,000	\$825
Compute the premium for a Standard MP in the same amount	- 750
	Difference \$ 75
Compute the premium for Standard OP, e.g., \$250,000	\$957
Add the difference attributable to EMP	+ 75
<b>Gross simultaneous Mixed Coverage Premium</b>	<b>\$1,032</b>

## Leasehold Policies

Compute the premium for Leasehold Mortgagee or Owner Policies using the standard policy premium rates.

## Closing Disclosure Form

For simultaneous policy transactions, remember to disclose premiums on the Closing Disclosure Form according to the CFPB rule. For example, the gross premium for a \$150,000 Standard Owner Policy (OP) and a \$100,000 Standard Mortgagee Policy (MP) is \$607.00; the CFPB rule requires you to disclose the MP premium as \$400.00 (the MP only premium) and the OP premium as \$207.00 (the difference between the gross premium and the MP only premium). Also, the Agent split is not required on the Closing Disclosure Form. The same rule applies to the HUD-1 Settlement Statement except the Agent split is required.

Please call CATIC if you have any questions or have any other rate calculation situations.
